DETAILED ACTION

Allowable Subject Matter

1. **Claims 1 – 4, 6 – 15, 17, and 19 – 22 (now renumbered 1 – 19, respectively)** are allowed.

2. The following is an Examiner's statement of reasons for allowance:

The closest prior art discloses a file handling method between a digital camera and an externally connected computer system, wherein file tags (file attribute designations) for digital images include an archive file attribute that designates that an image file has undergone a backup procedure and can be safely deleted from local storage, such that when an attempt to take an image results in an indication that more storage space is needed, digital image files in the camera memory that have an archive file attribute are deleted to reclaim storage space.

However, the closest prior art does not teach or fairly suggest automatically disabling image capture if the camera memory is full and does not contain any archived images (i.e., image files that have an archive file attribute).

3. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
